+44 7552 749 955  
London, United Kingdom

## Technical Skills

- **React, Typescript, Remix/Next.js, Node.js**
- **Tailwind/CSS, Python, Vite.js**
- **Adobe creative suite: Photoshop, InDesign, Illustrator**

## Experience

### Freelance Developer - Self

January 2022 - present

- Designing and building the company website and several client websites with custom code.
- Started off using **Html, css & Javascript** progressing onto using **Remix/Vite, React** and **tailwindcss**, & **typescript** to streamline the dev process.
- Use of **Git** and **Github** for version control and code storage
- Implementation of **REST APIs** for further functionalities. Deployment with **Vercel**.

### AWS Certified Cloud Practitioner

April 2023

- I took this qualification to demonstrate my skills and understanding of **cloud service providers**, subsequently using **AWS** in my role at PE Safe to spin-up virtual machines, configure users, VPC's, security groups, routing, Elastic IP's, launch templates etc.

### Engineer - PE safe (IT Consultancy)

March 2022 - present

- Web development using **WordPress, HTML/CSS, Javascript, typescript, React** and some **PHP** to build, fix and maintain client websites.
- Using versioning with **Git** and **GitHub/GitLab**, and basic bash commands with **linux** distributions to work alongside other developers.
- Dabbled in **Figma** and I am experienced with **agile**-based software.
- Further work involving cloud platforms (Azure, GCP & AWS), engineering with tools such as **docker, terraform, Kubernetes**, Jenkins, and applying best practices to help businesses reduce security vulnerabilities.
- I researched and reviewed GCP KMS config for a financial client, producing a comprehensive document covering proper practices around KEKs and DEK's.

## Personal Projects

### Client: suziwinecoaching.com -

Full-stack application for a lifecoach client. Designed the UI with Adobe InDesign, then created a Remix/react app with TailwindCSS.

Includes a modal with a post method API request to 'Sender' email marketing software, and an email api integrated with 'Resend' to send emails with user info.

### Drawnbyyehudah.com -

A Remix/React+TailwindCSS app built for the purpose of selling my art. I used the resend api to allow users to use a form to send a custom message and file to me via email.

### Portfolio site: yd-portfolio-fawn.vercel.app -

A Next.js/React app used to display my portfolio of work and my UI design skills, using tailwind and css keyframes for animation. Deployed with vercel.

## Education and qualification

**Arden University** - Graphic Design BA (Hons)

2020 - 2023

**Mercaz Hatorah College, Israel** - Studying Talmudic law and ethics

2016 - 2021

**Hasmonean High School** - A-Level: Maths B, Geography B, and Biblical Hebrew C.  
GCSE's: 11 (grades: 8A & 4A\*)

2009 - 2016

## Voluntary Work

### Participant - Kef Bike Ride

July 2023

I raised £1300 for a London-based charity dedicated to supporting children and young adults with a wide range of physical and learning disabilities and their families.

### Volunteer - Gift and Shabbat Walk

April 2020 - May 2021

Delivering food packages and shopping orders to vulnerable individuals during COVID-19 Pandemic, and toys to local families during lockdowns.

## Professional Skills

---

**Code:** HTML, CSS, Javascript, Python, Ruby, SQL, PHP, Remix and React.

**Cloud engineering:** AWS certified practitioner, experience with provisioning, routing and networking through PaaS and through IaC with terraform. Experienced in AWS, Azure and GCP

**Problem-solving & Creativity:** Web-design projects, graphic design objectives and studying jewish law has helped me to develop a strong problem solving ethic. 4+ years experience with Adobe creative suite.

**Communication:** Account manager and freelancer liasing with clients. Experience with Jira, atlassian, and agile approach to working.
